40 items came through the doors of Ruthin's March Repair Café with a fix and advice rate of 91%.

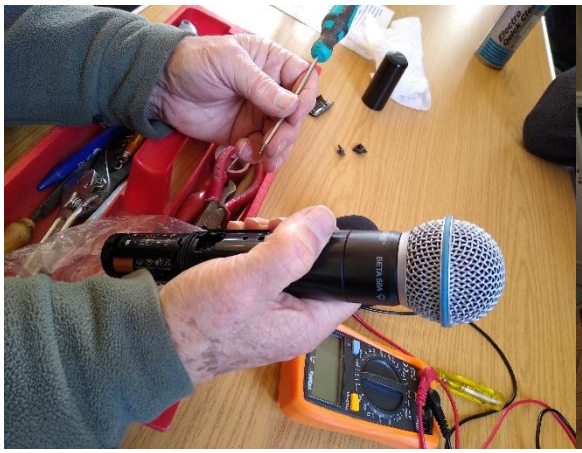

Among the many interesting fixed items at the St David's Day Repair Café were a sculpture from Miami which had been broken in transit to the UK which was fixed by Andrew Coomber. Andrew also repaired an antique pewter candlestick using a hair dryer to free wax from the mechanism.
A unique repair for the Café was a kettle not working because there was an earwig in the on/off switch. We're pleased to report that no insects were harmed with this repair as the earwig had already popped off.

Rita who was on sewing repairs had a busy morning repairing a handbag, two jackets, a quilt cover and giving a beloved teddy bear his smile back.
Phil, a fixer from the Repair Café in Denbigh spent the morning with us. He and Pete Regan repaired a SM58 radio microphone. John Miller was busy on bike duty repairing a kid's bike.

The next Ruthin Repair Café will be on Saturday 5th April from 10am – 1pm (last orders 12.30pm) at the Naylor Leyland Centre, Well Street, Ruthin.
